

Just because the taxpayers have paid Barry Macha's salary for the past 25 years doesn't mean he should be a judge.

The truth is: If Barry Macha becomes a judge, it will open the door to case-by-case legal delays. Conflict of interest issues will become concerns for attorneys. Motions filed for disqualification and recusals **stop everything, clog the system, delay the judicial process, and add costs to budgets that are funded by taxpayers.**

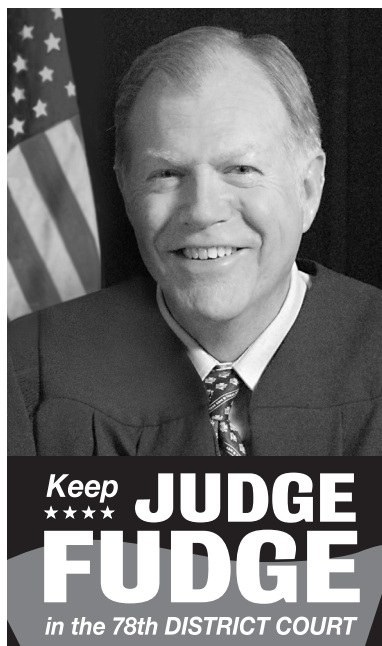

- Macha would be **Disqualified In All Juvenile** civil cases
- Conflict of interest issues could result in **Disqualifications and Motions of Recusal** (request to step down} in criminal cases indicted during his years in office.

Texas Code of Criminal Procedure, Article 30.01

DON'T BE MISLED. KNOW THE FACTS.

Read what a former District Judge and General Counsel of the State Bar of Texas has to say in response to Barry Macha's Email Talking Points about this issue. www.keepjudgefudge.com

"I'm not a politician. I have no hidden agendas. I'm a public servant with conservative values. When I was appointed by the Governor, I was honored to be given the opportunity to serve the people of Wichita County. You have my word that I will continue to work hard, listen, and make fair decisions based on law, not on social or political pressures."

When our police don't endorse the District Attorney, that says it all.

Judge Fudge is endorsed by the

Wichita Falls Police Officers Association, Iowa Park Police Association, Burkburnett Police Association and the Electra Chief of Police.

Early Voting Starts Feb. 16
